Tawny Owls

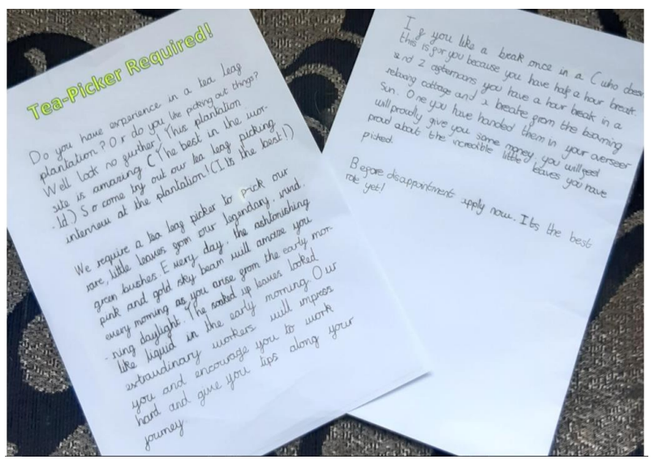
Tea-Picker Required!

Working inside with no fresh air? Bored and looking for an outstanding job where you can work to your full ability? Well, this job is for you! Come and join the best in the business at our spectacular Tea-Plantation (with our fantastic workers). Get outside and don't miss this glorious chance! You might even be lucky enough to make it as a manager one day! This job is suitable for anyone hard-working, resilient and energetic or people that enjoy working in nature.

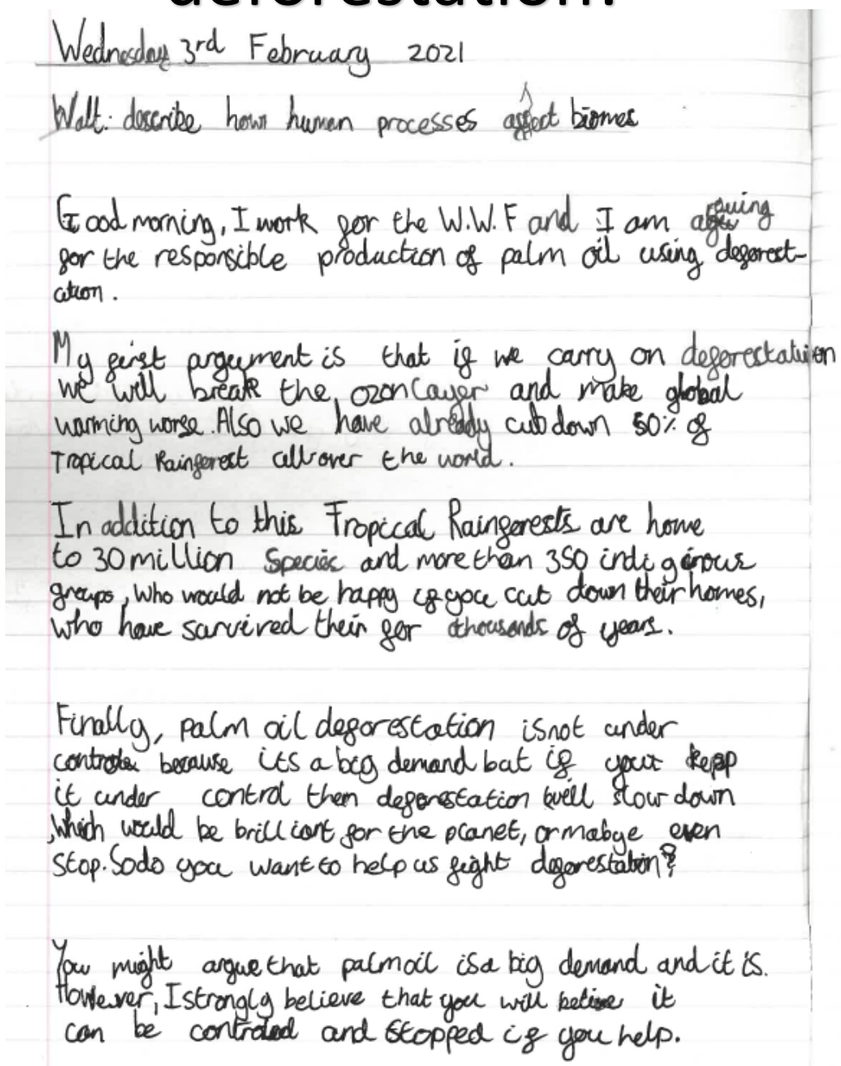
As a Tea-Leaf picker, you will arrive to dawn's first rays of sunlight embracing you like a huge, golden blanket. Welcoming you will be our diligent workforce that are extremely friendly. These are the bonuses of starting early! Our helpful workers will higher your pay by guiding you to the finest leaves. Peering over the dew-covered bushes, you will notice never ending, emerald green meadows surrounding picturesque views of mountain peaks. At the end of the day, the emerald green leaves will sway and dance in the wind, as though they are waving bye to you. (Read on for more information about this job).

Another bonus of an early start is you will get a higher pay than any other plantation in the region. As a result of your hard work, you will be rewarded with breaks where you can enjoy the tranquil sunshine or eat some delicious food. (Our team can join you if you wish). A handsome figure of money will be yours when you hand in a great deal of tea leaves to the overseer. On your break, you will be able to sit down and relax near the shimmering, green bushes, listening to the birds chirping. Nature offers the absolute best working area as there is no limit to your space.

Calling us will lead to a life-changing role so don't miss out! Take your chance at the best plantation in the region. If you contact us, this outstanding opportunity - at the best plantation in the region - will be yours and yours only. What are you waiting for? Surely you don't want to miss this charming chance!



Geography- preparation for our debate on deforestation!



Wednesday 3rd February 2021

Walt: describe how human processes affect biomes

Good morning, I work for the W.W.F and I am arguing for the responsible production of palm oil using deforestation.

My first argument is that if we carry on deforestation we will break the ozon layer and make global warming worse. Also we have already cut down 50% of Tropical Rainforest all over the world.

In addition to this Tropical Rainforests are home to 30 million Species and more than 350 indigenous groups, who would not be happy if you cut down their homes, who have survived there for thousands of years.

Finally, palm oil deforestation is not under control because it's a big demand but if you keep it under control then deforestation will slow down which would be brilliant for the planet, or maybe even stop. So do you want to help us fight deforestation?

You might argue that palm oil is a big demand and it is. However, I strongly believe that you will believe it can be controlled and stopped if you help.

Tea-Picker Required!

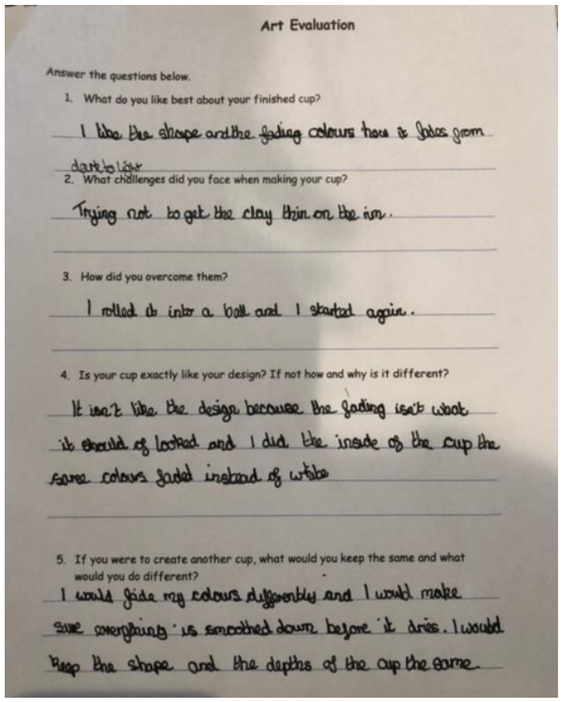
Are you fit and healthy? Can you reach high? If so, this could be a dream job for you. This marvellous job is a once in a lifetime opportunity and could lead you to management. You will work with the most extraordinary, hard working team in the world which is at the most fabulous tea plantation. Don't miss out!

Sadly, one of our tea-leaf pickers has fallen ill so we require a new, hard working tea-leaf picker. You will pick our special tea leaves (from our prickly bushes) and count the freshly picked leaves while observing the magical world of shimmering, snow-capped mountains and majestic, vivid green valleys that surround our fabulous tea plantation. As glorious streams of pink and yellow light appear, you will be starting your work at our fabulous plantation.

Because of the early start, you will have two breaks. One will be a long lunch break in the middle of the day that will take place in a special area in our fabulous plantation. Some benefits of this extraordinary job are the picturesque surroundings and the amazing team you will work with at this fabulous plantation. As a result of your hard work, you will earn a high figure of money.

This really is an unforgettable opportunity and we would be disappointed not to see you here. Join now so you don't miss out this unforgettable opportunity

Art



Art Evaluation

Answer the questions below.

1. What do you like best about your finished cup?
I like the shape and the fading colours how it fades from dark to light
2. What challenges did you face when making your cup?
Trying not to get the clay thin on the rim.
3. How did you overcome them?
I rolled it into a ball and I started again.
4. Is your cup exactly like your design? If not how and why is it different?
It isn't like the design because the fading isn't what it should of looked and I did the inside of the cup the same colours faded instead of white
5. If you were to create another cup, what would you keep the same and what would you do different?
I would fade my colours differently and I would make sure everything is smoothed down before it dries. I would keep the shape and the depths of the cup the same.
